

# MIGUEL HERNÁNDEZ

DESARROLLADOR  
FRONTEND

## ABSTRACT

### Front End Developer and telecommunication engineer

I have technical knowledge in JavaScript (ES 6+), CSS, Grid, Flexbox, HTML, Bootstrap, tailwind, Git, Github, React, React-Redux, Angular, Firebase and API consumption. Experience in network administration, telephony over VoIP, and project management. With constant learning motivation and emphasis on results

## SKILLS

- JavaScript (ES 6+)
- React Js
- Hooks - React
- React Redux
- Angular
- Angular material
- CSS, Grid, Flexbox, HTML, bootstrap
- Git, Github
- Tailwind
- Non-relational database like Firebase

## WORK EXPERIENCE

### Front End Developer

**Geek Academy (bootcamp) | 2021**

- I implemented authentication system with Firebase.
- I built graphical interface using Styled Components and Bootstrap 4.
- To manage global app data, React Redux was used.
- I implemented Formik for form validation and error handling.

### Front End Developer

**Annar Health Technologies| 2022**

- I built the graphical interface of the app for patient management using Angular and Angular material.
- I implemented route security using guards.
- Angular routes and lazyload to automatically load child routes into specific components.
- Angular custom pipes for information filtering.

## ACADEMIC TRAINING

### Geek Academy (bootcamp)

Graduate |October 2021 - December 2021|

### Santo Tomás University

Telecommunication Engineer |2015-2020|

### Grade in Udemy

UDEMY 2020

Responsive, SASS, Flexbox, Grid y Bootstrap 4

## IDIOM

**SPANISH:** Native

**ENGLISH:** Intermediate (B1)
